RoHS information for all LINAK customers

Your ref.: -

Our ref.: Vice President and COO Egon Jensen

Date: 1st of July, 2006

Dear Sirs,

As a manufacturer of components for Electrical and Electronic Equipment (EEE), LINAK is not directly covered under the RoHS directive that went into effect on 1 July 2006. But as LINAK's actuator systems in many cases are the only Electrical and Electronic Equipment in our customer's applications, LINAK has decided to fully comply with the RoHS directive.

After several months of dedicated work, we are glad to confirm that all LINAK products are now compatible with the directions covered under the RoHS directive.

If you have any questions regarding this info letter, please do not hesitate to contact your local LINAK subsidiary or the LINAK Group Headquarters.

LINAK A/S
